MACH 2018

Showcasing 13 machines at MACH this year at the NEC, we're excited to have our biggest stand there to date!

All 13 machines will be in live cutting action and linked through the Mazak iSMART Factory™ to demonstrate the connectivity of factory floor with office.

Through the connection of Smooth Technology with the Mazak iSMART Factory™ platform a business can improve its output through improved efficiency, data monitoring and security.

SUPPORTING THE ENGINEERS OF THE FUTURE

At Mazak we have a robust apprenticeship programme and actively support the next generation of engineers.

Currently recruiting for this year's intake, we're looking for enthusiastic, self-motivated individuals looking to make their first step to a rewarding career in engineering.

A LEGO MAZAK MACHINE SHOP!

As the 4th generation within the Katron Engineering family line, Sam Groves is still a bit young, at 14 years old, to start working in his family's factory.

But that hasn't stopped him from his interest in the business, instead he has created his own unique factory of Mazak machines using Lego Duplo!
