

ENVIRONMENTAL POLICY STATEMENT YAMAZAKI MAZAK UK LTD

The Environmental policy is an integral part of Yamazaki Mazak (UK) Ltd business strategy. The Group Managing Director for Europe is responsible for managing and maintaining the policy.

Top management promotes and endorses this policy and ensures it is compatible with the context and strategic direction of the company. We are committed to continual improvement of the Environmental Management System (EMS) to enhance environmental performance. This will be carried out by documenting environmental objectives based on our compliance obligations, significant business risks and opportunities.

Top management is committed to ensuring that the Company:

- Comply with all relevant environmental laws, regulations and compliance obligations.
- Provide employees and others with the resources needed for the EMS, including support, direction and encouragement to be able to fulfil the requirements.
- Maintain registration of environment management standard BS EN ISO14001:2004.
- Protect the environment, prevent pollution and meet other relevant commitments.
- Minimise waste to landfill by reducing our waste generation and by recycling waste.
- Consider the environment in the procurement of goods and services.
- Work with interested parties to encourage commitment to our local environment.
- Support relevant management roles to demonstrate leadership.
- Promote a positive culture that encourages good environmental practices.

This policy will be communicated to all employees and organisations working for or on behalf of Yamazaki Mazak (UK) Ltd. This policy statement is available to interested parties on the website www.mazakeu.com
